

# THE HOPE EFFECT

Changing the way the world cares for orphans.

## EVERY CHILD DESERVES A FAMILY

THERE ARE APPROXIMATELY  
**15.1 MILLION**  
ORPHANS WORLDWIDE

Millions of orphaned and vulnerable children around the world are growing up in orphanages. But there is clear and compelling research on the damaging effects of traditional, institutional orphan care.

The Hope Effect is changing orphan care by providing family-based solutions. Family care provides opportunities for each child to flourish and thrive.

## OUR STRATEGIC FRAMEWORK

### Pioneer Public Family-Style Care

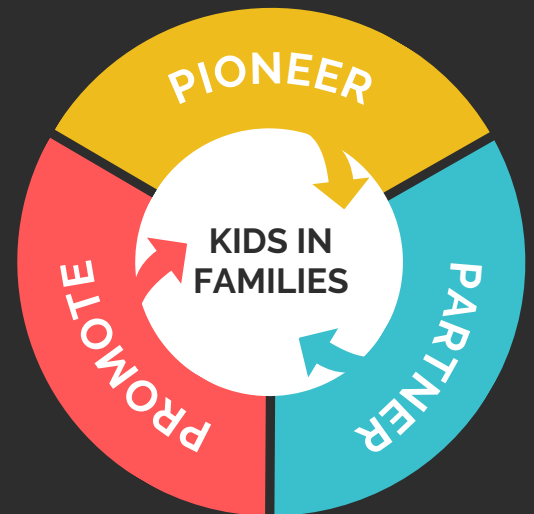

We bring family-style orphan care to locations where it does not exist. We change the primary care model of orphaned and vulnerable children by pioneering family care programs. To accomplish this, we collaborate with local governments to develop innovative, sustainable solutions.

### Partner With Proven Accelerators

We partner with like-minded organizations to help the family care movement grow faster, which ultimately results in more kids getting out of orphanages and into loving families. We work through partnerships to accelerate family care programs as well as facilitate the reintegration of children who are currently living in orphanages back into their families.

### Promote A Better Way To Places of Worship

A recent study shows that approximately \$2.5 billion a year is given from churches in the U.S. to orphanages around the world. We raise awareness about the dangers of institutional orphan care and educate about the importance of family in a child's life. We promote a better way of orphan care to churches and people of faith in the U.S. to generate even more momentum for the family care movement around the world.
